Digital **Mortgage Solutions**

Redefining Disjointed Journeys into Unified Customer Experiences

AppsTek CORP

At AppsTek Corp, we forge collaborative partnerships for seamless mortgage application transformation and offer comprehensive application modernization services and solutions that transform origination, underwriting, and closing into a digital journey for both borrowers and lenders.

Disrupting Disjointed Mortgage Journeys for Customer-Centric Experiences

Deliver faster, happier mortgage journeys with our streamlined solutions. We automate tasks, eliminate paperwork, and always keep your customer needs and efficiency in mind.

Mortgage Origination Applications Solutions

Leveraging Automation and AI, Data Analytics, Conversational AI, and APIs, Mortgage Loan Origination Applications (LOAs) reduce processing times to minutes, offering benefits such as risk assessment, compliance, cost reduction, improved customer experience, and fraud detection for modern lenders.

Mortgage Underwriting Automation Solutions

Automated underwriting systems transform mortgage approval for financial institutions by utilizing advanced technologies such as AI, ML, NLP, and more; it ensures faster, compliant, and efficient processes, benefiting document processing, finance, customer service, and management.

Mortgage eClosing Solutions

With mortgage eClosing solutions, customers can choose from various options, such as hybrid eClosing, hybrid eClosing with eNote, in-person electronic notarization (IPEN), and remote online notarization (RON). This reduces costs, streamlines processes, and offers a seamless mortgage closing experience.

Offering Highlights

14% increase in annual revenue

50% decrease in App rationalization effort

81% of lenders report improved employee morale

80% satisfaction rate with minimal error rates

10% reduction in mortgage initiation costs

Take Mortgage Digital Transformation to the Next Level
