Engagement Models

EET Approach

Resource Augmentation

- Project Staffing
- T&M based model

- Short term benefits
- Less IP Concerns

Project Based Engagement

- SOW based approach
- T&M or Fixed cost per work package

- Excellent option to start the engagement
- Immediate solutions at peak loads
- No dedicated team, lesser knowledge retention
- Productivity slowdown due to slow learning curve

Core Team Model

- Core Team
- Onsite-offshore model
- T&M or Fixed Monthly Fee
- Overall ownership of selective work streams

- Dedicated team boosts knowledge for improved efficiency and productivity.
- Better governance
- Enhanced flexibility
- Metrics for tracking performance

- Dedicated team, infrastructure & resources
- Fixed billing of resources / month
- Onsite : Offshore 20:80
- 3 tier governance model

- Extended Engineering Team (EET)
- Knowledge retention, resulting in higher productivity
- Better product & process knowledge resulting in higher efficiency
- Better governance
- Enhanced flexibility
- Implementation of new technologies & best practices

Enhanced efficiency, productivity, and value
